

SMART FACTORY

Daily Factory Performance Report

Parameter	Value
Total Production	2390 units
Production Achievement	95.60%
Running Machines	7/8
Low Stock Materials	4
Defect Rate	3.95%
Total Production Cost	Rs. 164,550
Total Energy Consumption	2,743 kWh

Inventory Alerts

Steel Shaft - Current Stock: 18

Servo Gear - Current Stock: 25

Copper Wire - Current Stock: 22

Robot Joint Material - Current Stock: 20

Machine Status

CNC Machine 1 - Running - Downtime: 2 hours

CNC Machine 2 - Running - Downtime: 4 hours

CNC Machine 3 - Stopped - Downtime: 18 hours

Milling Machine 1 - Running - Downtime: 3 hours

Drilling Machine 1 - Running - Downtime: 5 hours

Grinding Machine 1 - Running - Downtime: 2 hours

Lathe Machine 1 - Running - Downtime: 6 hours

Assembly Machine 1 - Running - Downtime: 3 hours

Management Recommendation

Monitor low-stock materials, inspect machines with high downtime, and improve quality monitoring for lines with high defect rates.
